

SOCIAL and PERSONAL

THE leading society event of yesterday was the closing musical of the season, given by the Woman's Club in the Jefferson Hotel auditorium.

An exquisite program was rendered by an orchestra of twenty-six pieces and by a quartet composed of Mrs. Clifton M. Miller, Mrs. Patten, Mrs. C. Depe and Mr. Arthur Scribner.

The vocalists are all known to be among the best in Richmond. They sang with unusual power and animation, and were compelled to respond to the encore after another. The orchestra played in beautiful unison, its selections being remarkably well chosen and heard with great enthusiasm.

Smart society turned out in full force to enjoy the hospitality of the club, and the triumph of the evening made it a closing to a season at the Woman's Club that has been distinguished by a number of elegant entertainments.

The officers and prominent members of the club were present. Mrs. Frank W. Duke, the chairman of the musical committee, received many congratulations on the entire success of the final musical.

Women know! It isn't necessary to tell them that the best way, the only safe way, to wash "fancy work" is with Ivory Soap and lukewarm water.

They wouldn't think of using ordinary laundry soap, or washing powders, or chemicals.

WOODEN STOVE.

When Miss Winifred Potts, demonstrating electrical cooking for the Passenger and Power Company in Jurgens' furniture store, Adams and Broad Streets, speaks of her wooden stove, every one of her many visitors sit up and take notice.

Miss Potts has amazed thousands of persons here with her wooden stove, and at first nearly every one seems to think she is joking. They soon learn, however, that she is a very business-like lady, and that what she loves a joke, in its place, as well as anyone, but when she is teaching her visitors the practical benefits of house-keeping the electrical way she has neither time nor inclination for joking.

She deals in facts and figures. The wooden stove is a neat, finished oak cabinet. On this rests the coffee percolator, frying pan, grid iron, broiler, oven, cereal cooker, toaster, combination cooker, milk warmer and several other aluminum utensils, clean, bright and shining. On the wooden stove visitors see Miss Potts cook delicious brown biscuits, crisp griddle cakes, broil beefsteak, chops, lobsters or cutlets, as well as make surpassing coffee, tea or chocolate yesterday morning. The cooking devices all sit on top of the cabinet, and all the cooking is done by electric heat. The electric cooking utensils are so scientifically constructed and the electrical control of the heat is so perfect that none is wasted, and all is concentrated where it is needed. A meal for a large family is cooked daily on this wooden stove, and yet the demonstrator is always appearing as cool, calm and collected as though receiving her theme in a cool Northern sea-side resort.

DID NOT SAY BRIBE WAS OFFERED HIM

Governor Glenn Explains That He Was Misunderstood in Salisbury Speech.

[Special to The Times-Dispatch.] RALEIGH, N. C., May 18.—"I either expressed myself very badly or was misunderstood by some of the newspaper men of Salisbury," said Governor Glenn to-day. "I have been quoted," he continued, "as saying that I had been offered a bribe of \$10,000 to release two men convicted and serving sentences for selling liquor. No bribe has ever been offered or hinted at in the remotest manner. I was urged to pardon two men serving such sentences, or if I would not pardon, then to change the sentences to fines. I declared to the applicants that I would do no such thing; no, not for \$5,000 nor \$10,000, but that these men and their relatives were deliberate corruptors of the public morals in bold defiance of the law, and they must reap the consequences of their offenses. I want it understood that no whiskey man or other person has offered or hinted at any sort of a bribe for any purpose."

Governor Glenn spent the forenoon in the executive office, and went this afternoon to Henderson to deliver a prohibition address there to-night. He will be in the prohibition campaign right along now until the election, May 26th.

Speaking of the recent conference of Governors with President Roosevelt, which he attended last week, the Governor said that in his opinion no meeting has ever been held in the United States fraught with more good results to the whole country, and that this will be shown abundantly in the results evident in the near future.

SHOT BY LAWMAKER.

Wound of Abel Not Fatal, as First Appeared—Boyd Stands Ground.

[Special to The Times-Dispatch.] ASHEVILLE, N. C., May 18.—Henry Abel, formerly chief of police of Waynesville, who was shot on the streets of that town Saturday evening about 8 o'clock by David L. Boyd, Haywood county's representative in the lower house of the State Legislature, is reported resting well with good chance for recovery. The trouble between Mr. Abel and Mr. Boyd grew out of a fight between two young men during the fracas, it is said that Abel asked Boyd, "What have you got to do with it?" and that Boyd replied, "Not a thing on earth." Abel advanced on Boyd and it is alleged, struck at him, when they mixed, Boyd was thrown to the ground with Abel on top. It was at this moment that Boyd is alleged to have drawn his pistol and fired the two shots. One of the bullets entered Abel's body, penetrating the lower part of the lung, and for a time it was feared that the wound would prove fatal. The bullet which entered Boyd's back, located near the back, and removed.

It was at first reported that Mr. Boyd left the county and escaped to Tennessee. This was an error, however, he having made no effort to escape.

PRAYED FOR, THOUGH DEAD.

Body Kept Out Five Days—Christian Scientists Pray for Resurrection.

[Special to The Times-Dispatch.] ASHEVILLE, N. C., May 18.—When Noah Carpenter, a wealthy citizen residing at No. 4 Short Street, Baltimore, died, his wife, Mrs. Carpenter, a Christian Scientist, took the body to the home and at once began praying for his resurrection to life. All day Tuesday the efforts were continued, but during the day it is said Mrs. Carpenter arranged for the purchase of a costly casket, but would not consent for the body to be sent to the house until after the Christian Scientists had exhausted their efforts.

During the day Undertaker Assistant Holden, of Asheville, went out to embalm the body, but the Christian Scientists and the dead man's wife were still hopeful that the dead would be brought to life, and would not consent to the corpse to be prepared for burial. Even after the body was embalmed on Wednesday it is said that the Christian Scientists insisted that the body be kept in the house until to be dead, and that prayers for resurrection were still offered. The coffin was not sent to the residence until Saturday afternoon—five days after death—and the remains left that night for Savannah.

Mr. Carpenter had been in Baltimore only a short time, having removed there from Asheville. He was in bad health, and suffered a hemorrhage a few moments before he died.

WOMEN WHO WEAR WELL.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliant gleam like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheeks of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate woman's organs, so surely when these organs are established in health the face and form at once witness to the fact. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve tonic, and restores woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Lowell, Mass., or Dr. R. V. Pierce, Buffalo, N. Y.

ARE STILL COMING IN

Norfolk Section Sends Up Twenty-two New Convicts.

Large batches of convicts are coming in from time to time at the Virginia Penitentiary, the last having arrived from Norfolk city and vicinity. There were twenty-two condemned men in the gang, and there being no desperate outlaws among them, they were handled without any considerable trouble. They have all been examined, shaved and assigned to duty, some at the prison and others to the State farm where they will spend their respective terms. They are all short-term men, and were sent up for minor offenses.

Johnson Goes to Jail.

Charles Johnson, who was convicted a week ago yesterday on the charge of illegally selling whiskey, and who was liberated on \$500 bail pending his appeal, was returned to Police Court yesterday morning by his bondsman. Justice Crutchfield assigned him to a cell in the city jail, where he will await trial or another bond.

Help the Bowels When They Need It—Don't Delay

Don't wait till you need a violent physic, for harsh physic always harms. Take one Cascaret as soon as you need it. Take another later if necessary. Carry a box always with you. Give the bowels a little help while a little is sufficient.

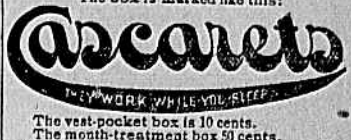

Thus it is easy to keep the bowels regular. And that means keeping well.

You can't take salts or pill cathartics in that way, for they are injurious. They irritate the stomach and bowels. When oft repeated, that is disastrous.

Nearly all dyspepsia—all constipation—is caused by that sort of physic.

It is wicked to thus abuse the stomach and bowels. Gentleness is just as effective. Cascarets act naturally. There is no gripping or pain. They are vegetable. Take one whenever you need it. They're as harmless as food.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with C.C.C. on every tablet. The box is marked like this:

The vast-pocket box is 10 cents. The month-treatment box 50 cents. 12,000,000 boxes sold annually.

FIRE DESTROYS PLANT OF HUB AND HANDLE COMPANY

[Special to The Times-Dispatch.] HIGH POINT, N. C., May 18.—Fire last night destroyed the plant of the Hub and Handle Company, located in the western part of the city; loss about \$5,000, with the loss of a covering something like half the amount. The plant was located beyond the water limit, and consequently the fire companies could render little assistance. It was owned by Messrs. Hamilton and Cecil and manufactured handles for forks, knives, hose, shovels, etc., and hub and handles. The company was doing a splendid business, working full time, and shipping their goods regularly. The origin is unknown.

METHODIST PREACHERS MUST GO TO OLD HOMES TO VOTE.

[Special to The Times-Dispatch.] SALISBURY, N. C., May 18.—The Methodist preachers in North Carolina are greatly exercised over the prospect that many of them will not be permitted to vote in the prohibition election May 26th. A large number of the ministers went to their respective charges last November, and consequently many of them have not been living in their present location long enough to be entitled to cast a ballot. Many of them declare they will vote against whiskey if they are forced to ride across the State to former precincts, where they lived last year, and where it is claimed they would be allowed to vote.
